

# Cognizant Technology Solutions

## Key Accomplishments - Application Development for HMH

- HMH is an EduTech company and Cognizant helped rewrite a product through which students can take online exams
- I started as an Individual contributor and rewrote the application in the Spring framework and successfully delivered first phase
- During the second phase of development, I led the architecture and the team and successfully delivered rest of the phases

# Accenture

## Key Accomplishments - Application Development for Nokia Siemens Network

- NSN was using a legacy PLM (Product Lifecycle Management) tool and sought help from Accenture to migrate huge data sets to a new tool named Enovia
- I, along with couple of other developers, wrote a middleware in Spring & JMS technologies
- Successfully migrated data to the new PLM Tool
